Average Energy Prices, Chicago-Gary-Kenosha — November 2016

Gasoline prices averaged \$2.242 a gallon in the Chicago-Gary-Kenosha area in November 2016, the U.S. Bureau of Labor Statistics reported today. Assistant Commissioner for Regional Operations Charlene Peiffer noted that area gasoline prices were down 9.0 cents compared to November 2015 when they averaged \$2.332 per gallon. Chicago area households paid an average of 14.8 cents per kilowatt-hour (kWh) of electricity in November 2016, 6.3 percent less than the 15.8 cents per kWh paid in November 2015. In November, the average cost of utility (piped) gas was 86.9 cents per therm, up from its average price of 73.3 cents per therm a year earlier. (Data in this release are not seasonally adjusted; accordingly, over-the-year-analysis is used throughout.)

At \$2.242 a gallon, prices for gasoline in the Chicago area were comparable to the national average of \$2.246 a gallon in November 2016. Chicago area gasoline prices have been higher than the national average in the previous four years (2012-2015) in November, ranging from 8.3 cents to 12.6 cents more. (See [chart 1.](#))

Chart 1. Average prices for gasoline, Chicago-Gary-Kenosha and the United States, 2012-2016 (as of November)

Source: U.S. Bureau of Labor Statistics.

The 14.8 cents per kWh that Chicago households paid for electricity in November 2016 was 13.0 percent higher than the nationwide average cost of 13.1 cents per kWh. With the exception of November 2013, when Chicago area electricity costs were comparable to the national average, Chicago electricity prices in the previous four years (2012-2015) have exceeded the national average, ranging from 11.2 percent to 22.8 percent more. (See [chart 2](#).)

The **Chicago-Gary-Kenosha, Ill.-Ind.-Wis., Consolidated Metropolitan Statistical Area** consists of Cook, De Kalb, Du Page, Grundy, Kane, Kankakee, Kendall, Lake, McHenry, and Will Counties in Illinois; Lake and Porter Counties in Indiana; and Kenosha County in Wisconsin.

Historical average energy prices for the U.S. and select metropolitan areas are available at www.bls.gov/regions/midwest/data/averageenergyprices_selectedareas_table.htm.

The Consumer Price Index for December 2016 is scheduled to be released on Wednesday, January 18, 2017.

Technical Note

Average prices are estimated from Consumer Price Index (CPI) data for selected commodity series to support the research and analytic needs of CPI data users. Average prices for electricity, utility (piped) gas, and gasoline are published monthly for the U.S. city average, the 4 regions, the 3 population size classes, 10 region/size-class cross-classifications, and the 14 largest local index areas. For electricity, average prices per kilowatt-hour (kWh) are published. For utility (piped) gas, average prices per therm are published. For gasoline, the average price per gallon is published. Average prices for commonly available grades of gasoline are published as well as the average price across all grades.

All eligible prices are converted to a price per normalized quantity. These prices are then used to estimate a price for a defined fixed quantity. The average price per kilowatt-hour represents the total bill divided by the kilowatt-hour usage. The total bill is the sum of all items applicable to all consumers appearing on an electricity bill including, but not limited to, variable rates per kWh, fixed costs, taxes, surcharges, and credits. This calculation also applies to the average price per therm for utility (piped) gas.

Information in this release will be made available to sensory impaired individuals upon request. Voice phone: (202) 691-5200; Federal Relay Service: (800) 877-8339.

Table 1. Average prices for gasoline, electricity, and utility (piped) gas, Chicago-Gary-Kenosha and the United States, November 2015 – November 2016, not seasonally adjusted

Year and month	Gasoline per gallon		Electricity per kWh		Utility (piped) gas per therm	
	Chicago area	United States	Chicago area	United States	Chicago area	United States
2015
